Operational boundaries:	Scope 1, Scope 2 and relevant Scope 3 categories
Corporate Carbon Footprint:	307,193 t CO ₂ e (market-based, Scope 1-3, excl. biogenic emissions) 319,138 t CO ₂ e (location-based, Scope 1-3, excl. biogenic emissions)
Certificate valid until:	2027-02-28
Verification Report:	CF-2026-02-21273432

TÜV Rheinland Energy & Environment GmbH hereby confirms that the underlying calculations of the Corporate Carbon Footprint of Diehl Metall Stiftung & Co. KG for the reporting period specified above have been reviewed through an independent verification process. Based on this and with limited assurance, no indications were found that the GHG statement contains a material misstatement. The information and data provided have been reviewed and found to be accurate, complete, consistent and transparent to the extent necessary for a limited assurance engagement and in line with the goal and scope of the inventory. Further information can be found in the verification report. The validity of this certificate can be verified using the QR code or entering the test mark ID at www.certipedia.com.
