

## **DMA receives EMAS seal of approval again**

The environmental management of Diehl Metal Applications at the Berlin and Teltow sites also meets all requirements of the EMAS regulation in 2018. This was confirmed in this year's monitoring audit.

As in previous years, environmental activities focused on saving energy. For example, the use of LED luminaires could save around 206,700 kWh of energy per year.

You can find out more about other environmental activities and relevant environmental data from DMA in our current environmental statement.

### **About Diehl Metall:**

Diehl Metall is a Corporate Division of the Diehl Group founded in 1902 (sales: 3.6 billion euros, employees: 17,298) and has its headquarters in Röthenbach a.d. Pegnitz near Nuremberg. The company offers a broad spectrum of innovative products and technologies in the area of metal processing. In a global production network with locations in Europe, Asia, South America and the US, Diehl Metall develops application-oriented solutions for international customers.

The company assumes responsibility in the area of climate and resource protection, and places great value on recyclable alloys and composite materials. To fulfil this responsibility, Diehl Metall relies on technically optimized production processes and directs its innovation activities toward future trends.
