# 1 Introduction

## 1.1 Purpose of this document

Environmental awareness and responsibility are an integral part of our daily work. We practice environmental protection proactively by taking environmental aspects into account already during the product development process. Our environmental policy provides the framework for defining and evaluating environmental objectives.

Therefore, our aim is to incorporate environmental protection into all our activities in a holistic manner. This means that environmental protection is an inherent part of everything we do.

Diehl Defence is committed to complying with all applicable laws and regulations, as well as any other binding obligations. The company is also committed to continuously improving its environmental management system in order to enhance environmental performance and protect the environment from any harmful effects.

## 1.2 Guidelines of our environmental policy

- Our products and manufacturing processes are designed to minimize environmental impact.
- We reduce emissions into air and water wherever possible
- We regard environmental protection as a key management responsibility
- We foster environmental awareness and responsibility among all employees.
- We cooperate with authorities on the basis of mutual trust in all matters of environmental protection.
- Together with the authorities, we keep emergency plans up to date to minimize accidental emissions.
- We ensure that suppliers and service providers with environmental relevance demonstrate competence and reliability
- In addition to our own measures to protect the environment, we consider transparent communication with the public to be an essential element in building trust.
