APPLICATION

IZAR@MOBILE 2 is a software designed for fast and efficient mobile reading of IZAR radio modules and multi-energy smart meters. Its ergonomic interface makes its use intuitive and user-friendly. Furthermore, the map overview of the meters enables precise guidance during the tour reading. To benefit from all the software functionalities, IZAR@MOBILE 2 can be delivered pre-installed with IZAR TABLET. However, IZAR@MOBILE 2 functions with other Windows operating devices.

Connected to IZAR PLUS Portal or IZAR@NET 2 management software, IZAR@MOBILE 2 offers many enhanced features such as planning and management of multiple tours and remote or local data transfer.

IZAR@MOBILE 2 operates as well completely independently with its XLSX interface to import or export data.

IZAR@MOBILE 2 software can be flexibly adapted to your needs
