

"Every day is different, with
new topics and new adventures.
That's what excites me about being with Diehl."

MAKE IT WORK

SMARTER

Engineer (f/m/d) Avionics (System)

These are your tasks:

- As a system engineer, you will take responsibility for the development of avionics systems and equipment from the initial concept to the final acceptance and handover to the customer
- Your tasks will include the following: Requirement analysis, system design, validation of requirements and design as well as the planning and execution of the verification process
- You coordinate with internal and external stakeholders on an interdisciplinary basis and are responsible for the creation of specifications, concepts, architectures, plans, etc.
- You will also deal with questions regarding the certification of the product and initiate the necessary analyses and the creation of documentation

Who we are looking for:

- You have a degree in aerospace engineering, electrical engineering or a comparable field of study
- You have already gained professional experience in the analysis of requirements, in the creation of specifications or in the definition of system and device architectures for complex safety-critical systems
- Knowledge of system engineering (ARP4754A, ISO26262) and the certification of devices and systems under aviation regulations is desirable
- Initial experience with safety and reliability analyses or with the tools DOORS, SVN or Matlab/Simulink would be preferred
- Good communication and coordination skills as well as the ability to work in a team and business fluent English complete your profile

Work location: Frankfurt am Main, Nuremberg, Rostock or Überlingen (next to Lake Constance)

Job Level: Professional

Working time: Full time

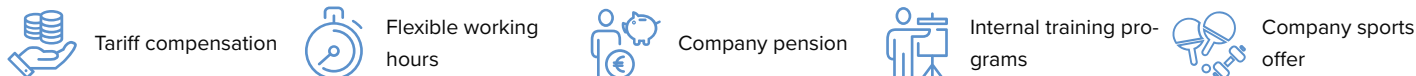

Employment contract: permanent

Division: Diehl Aviation

Start: from now on

As the team works together across locations, the place of work can be either in Frankfurt am Main, Nuremberg, Rostock or Überlingen (next to Lake Constance). Applications from severely disabled employees (m/f/d) will be given preferential treatment if they are equally suitable. Should you wish to do so, please indicate this in your application on a voluntary basis. Apply now with reference number Ü-006.

These are your potential benefits

Achieve what matters, with Diehl.
