# EFFICIENT

## Project Manager Development (m/f/d)

### These are your tasks:

- You will manage product development or pre-development projects (incl. offers) in the DAs Avionics division
- Your tasks include the planning, organization and implementation of plans and projects.
- You will be responsible for costs, deadlines, quality and the outcome of the projects.
- You will communicate with internal and external stakeholders. You will represent our interests with regard to project partners and clients.
- You will be responsible for technical and schedule coordination with our developers, customers and suppliers.

### Who we are looking for:

- You have a degree in industrial engineering, electrical engineering, computer science, communications engineering, physics, systems engineering, aerospace engineering or a comparable field of study.
- You have already gained professional experience in project management with regard to system, software or hardware development as well as expertise in project management (ideally in the avionics industry).
- Technical knowledge in the field of avionics is desirable.
- Ideally, you are certified according to PMI (PMP) or IPMA (Level D).
- High level of commitment and ability to deal with conflict and work in a team complete your profile.

**Work location:** Frankfurt am Main, Nuremberg, Rostock, Überlingen (next to Lake Constance).

**Job Level:** Professional

**Working time:** Full time

**Employment contract:** permanent

**Division:** Diehl Aviation

**Start:** as soon as possible

As the team works together across locations, the place of work can be either in Frankfurt am Main, Nuremberg, Rostock or Überlingen (next to Lake Constance). Applications from severely disabled employees (m/f/d) will be given preferential treatment if they are equally suitable. Should you wish to do so, please indicate this in your application on a voluntary basis.

### These are your potential benefits

## Achieve what matters, with Diehl.
