

"It's important to me to work for a company where I can **really make a difference**. That's why I am with Diehl."

MAKE IT WORK HAPPEN

IT Administrator - LINUX (m/f/d)

These are your tasks:

- Developing and implement a stable Linux Client Image for usage within Controls (mainly R&D) and keeping it current
- Developing and implement a stable Linux Service Image for usage within Controls and keeping it current
- Ensuring interoperability of Linux Systems with our Microsoft AD (as well as Entra-ID) world
- Maintain and evolve the APT-Cache for all Linux Systems to ensure secure and up-to-date Systems
- Develop and implement ways to ensure proper integration of Linux Systems into central Asset Management
- Together with colleagues:
 - develop and implement on-premise automation for Datacenter Services
 - develop and integrate on-premise Systems with Cloud Infrastructure
 - maintain other Linux based systems like Network, Big Data and Certificate systems
 - support other Departments regarding the usage of Linux based Systems during requirements phases

Who we are looking for:

Someone that:

- has experience in most of the described fields in a environment with at least 200 endpoints
- using scripting and existing automation frameworks
- ideally worked in a manufacturing business
- has worked with international colleagues
- has a good understanding of availability requirements for deployments
- has a communicative approach to daily business
- likes to share knowledge with others
- is fluent in English (and Polish of course)
