

"It's important to me to work for a company where I can **really make a difference**. That's why I am with Diehl."

MAKE IT WORK

Commodity Manager - Information Technology (m/w/d)

These are your tasks:

- Functional lead of NPR purchasers in the company units with regard to central general procurement commodity groups
- Development and implementation of procurement strategies with a focus on IT hardware and software and related services
- Realisation of procurement market, cost structure and price benchmark analyses
- Overall coordination and alignment of specifications, requirements and award targets in the context of supplier selection
- Preparation and execution of complex tenders, auctions and negotiations of conditions and contracts

Who we are looking for:

- Completed studies with focus on purchasing, mechanical engineering, (business) engineering or comparable studies
- At least three years of relevant professional experience in the procurement of IT hardware, software and related services
- Business fluent language skills in English, ideally knowledge of additional languages
- Good communication, persuasion and negotiation skills
- Ideally experience in the use of modern negotiation methods, e.g. game theory
- Knowledge of the methods of supplier, risk and material group management as well as special knowledge of contract forms and general knowledge of legal bases
