"It's important to me to work for a company where I can really make a difference. That's why I am with Diehl."

## SAP ABAP Developer GSC-IT (m/w/d)

#### These are your tasks:

- Develop and implement SAP enhancements using Badis, User-Exits, Reports, Sapscript
- · Collaborate with functional teams to understand business requirements and translate them into technical specifications
- Provide technical support and troubleshooting for SAP-related issues
- Creating and updating technical documentation
- · Maintain and support existing developments (programs, exits, forms, etc.), including analysis and problem resolution.

### Who we are looking for:

- Proven experience in SAP ABAP programming, including Badis, User-Exits, Reports as well as Sapscript
- SAP SD and MM modules (optional)
- · Excellent problem-solving skills and attention to detail
- · Ability to work independently
- Self-motivation so that you take responsibility for your work and see projects through to completion
- · Good English communication skills, both written and spoken
