

"It is important to me that we can
shape our future in a sustainable way.
That is why I am with Diehl."

MAKE IT WORK GREENER

Product Manager Static Water Meter (m/f/d)

These are your tasks:

- You will have global responsibility for the life cycle of one or more products, from definition and realization to phase-out, including managing market launches and product phase-out.
- You will identify customer needs and market potentials, elaborating innovative product and solution requirements based on these needs.
- You will develop the product and solution strategy, create the product and solution roadmap, and define the pricing strategy
- You will be responsible for the creation and implementation of the business cases, review them regularly to ensure compliance, and initiate necessary measures.
- You will be responsible for the preparation of installation and operating instructions, conduct competition analyses, create tender documents, and develop product-specific sales documents.

Who we are looking for:

- You have a university degree in engineering (e.g. electrical engineering, industrial engineering, mechanical engineering), physics, business administration or comparable.
- You are equipped with good market, competitor and customer knowledge in the metering environment.
- You are experienced in product and project management as well as in an international working environment.
- Fluently spoken and written German and English is mandatory, other foreign languages would be an advantage.
- Presentation, persuasion and communication skills as well as the ability to solve problems completes your profile.
