

"At Diehl, we combine tradition with innovation to provide **sustainable solutions** for our customers."

MAKE IT WORK SMARTER

Head of Supply Chain Planning & Execution (m/f/d)

These are your tasks:

- Head of the Supply Chain Planning & Execution department. In this role, you will report to the Head of Supply Chain & Production.
- Management of the operational processes of production planning, procurement and scheduling of the required materials, as well as ramp-up management (during the development phase), supply chain design and supply chain controlling activities.
- Execution and further development of planning, control and procurement processes, their mapping in the ERP system (SAP), as well as holistic operational management of the value chain from the customer to the supplier, including securing the entire value chain.
- Responsibility for inventory management for raw materials, semi-finished and finished goods and continuous process optimization to achieve optimal parameters.
- Actively living the LOS! (Leadership / Ownership / Sustainability) leadership culture of DAs and successful work in multifunctional teams.

Who we are looking for:

- You have successfully completed a degree in economics or technical studies or equivalent training with additional specialist qualifications.
- You have many years of experience with management responsibility, ideally in the area of production or supply chain.
- You are experienced in dealing with supply chain and production processes (especially production planning and control, procurement).
- Your communication and teamwork skills, personal commitment and organizational skills are convincing and you have sound knowledge of SAP and MS Office.
- You have excellent knowledge of process and project management as well as lean methods and a very good command of English.
