MAKE IT WORK SMARTER

MES System Specialist M/F

These are your tasks:

Are you passionate about manufacturing technology and IT systems? Do you have experience with WEB technologies and databases? We're looking for a skilled Application Specialist to support and develop our Manufacturing Execution System (MES) for our production plant based in St-Louis, Alsace, France.

Your responsibilities:

- Provide user support for the MES system, including troubleshooting and monitoring
- Develop and optimize the MES system (MESMA, ITAC) to improve efficiency
- Participate in IT projects within the manufacturing department
- Support MES rollouts and implementation at other locations
- Coordinate collaboration with external service providers

Who we are looking for:

- Minimum 3 years of experience in IT or manufacturing environments
- Experience with WEB technologies (e.g., JavaScript, PHP) and databases (Oracle, MS SQL)
- French as a native language; English proficiency is essential
- German is a plus (B1 level, for technical documentation)
- Occasional project-related travel, collaborating with international teams

Work location: Saint-Louis, Grand-Est, France

Job Level: Professional

Working mode: Hybrid working

Working time: Full time

Employment contract: permanent

Division: Diehl Metering

Start: June 2025

A dynamic and innovative work environment - Opportunities for professional development in IT and manufacturing - Collaboration with industry experts and internal stakeholders - A chance to impact production efficiency and system optimization - Competitive compensation package aligned with industry standards

Achieve what matters, with Diehl.
