

"It's important to me to work for a company where I can **really make a difference**. That's why I am with Diehl."

MAKE IT WORK

Support Engineer

These are your tasks:

As part of the engineering department, you will be the point of contact and support for all technical questions relating to all types of cabin and ground applications on all types of aircraft.

Your main tasks will be :

- Select the points to be dealt with
- Analyse the issues to be addressed
- Finding and proposing solutions
- Write the repair instruction
- Identify definition problems and propose changes
- Write the modification instruction
- Organise and carry out validation tests of new concepts on aircraft
- Support production in the workshop and on aircraft
- Optimise rework methods

Who we are looking for:

- A minimum of 3 years' experience in a similar position within the cabin (ATA 25), air conditioning (ATA 21) or electrical (ATA 92) would be a plus.
- You have mechanical engineering knowledge, and electrical engineering knowledge would be a plus.
- You have knowledge of MS OFFICE, SAP as well as aviation and ISO standards, procedures and technical documents (CMM).
- You have a good level of English (spoken, read and written); some German would be a plus.
- You are rigorous, organised, reactive and have the ability to analyse and summarise.
