

"At Diehl, we combine tradition with innovation to provide **sustainable solutions** for our customers."

MAKE IT WORK SMARTER

Advanced Purchaser – Strategic Projects (f/m/d)

These are your tasks:

Your Key Responsibilities

- Engage early in project development stages to challenge technical specifications and reduce unnecessary complexity
- Manage purchasing activities for R&D, CSC, Sales and A&S projects, including supplier coordination and outsourcing execution
- Align project decisions with long-term category strategies and support contract management needs (software, services, engineering)
- Monitor supplier lead times and ensure PPAP validation to meet quality and time-to-market targets
- Provide timely and competitive responses for Sales Tenders, securing strong offers for pricing and lead time

Who we are looking for:

Your Profile

- Technical university degree with 3-5 years' experience in industrial R&D, technical environments, or similar purchasing roles
- Demonstrated success in delivering cost savings and cross-functional value in complex project settings
- Experience with RFQ preparation, PPAP process, supplier evaluation, and project purchasing best practices
- Proficient in English and French; German is an advantage
- Comfortable managing complexity across international teams and engaging external partners at eye level

Work location: Saint-Louis, Grand-Est, France

Job Level: Professional

Working mode: Hybrid working

Working time: Full time

Employment contract: permanent

Division: Diehl Metering

Start: 01/08/2025

- Be a key contributor in cross-functional innovation initiatives, from idea to execution
- Collaborate closely with category strategy, engineering, and sales functions
- Work with a wide variety of suppliers across technical domains
- Influence product development and outsourcing strategy
- Travel internationally (approx. 30%) in a company committed to operational excellence and sustainable growth

Achieve what matters, with Diehl.
