

"It is important to me that we continue to be a **technological leader** in the future. That's why I am with Diehl."

MAKE IT WORK

Senior Head of Strategic Supplier Quality

These are your tasks:

- Drive the implementation of the group-wide supplier quality strategy for Diehl Metering's strategic suppliers.
- Propose, implement, and coordinate corporate-level supplier qualification, assessment, and development processes and tools.
- Manage the quality performance of strategic suppliers: ensure effective corrective action plans are in place and lead escalation processes when necessary.
- Lead and develop the team: define priorities, set objectives, and support team competence development

Who we are looking for:

- Solid quality management knowledge (e.g., VDA 6.3 auditing, PPAP) and technical background (e.g., electronics, mechanics).
- Strong internal and external communication skills, with the ability to build constructive relationships and conduct effective negotiations.
- Business acumen and understanding of industrial organizational dynamics.
- Over 5 years of experience in supplier or customer quality management, including cross-functional coordination, ideally in an international industrial environment.
