

„Ich bin happy bei Diehl, weil ich was mit Maschinen machen kann. Und ich habe **tolle Kollegen**. Das Arbeitsklima ist sehr angenehm.“

# MAKE IT WORK

## Head of Engineering Project Management (m/f/d)

### These are your tasks:

- Strategic Planning: Defining project vision, scope, objectives, and milestones, and aligning them with the overall business strategy.
- Resource Management and Project Execution: Overseeing the allocation and management of resources (budgets, personnel, etc.) for various projects. And Ensuring projects are delivered on time, within budget, and to the required quality standards.
- Risk Management: Identifying, assessing, and mitigating potential risks and issues that may impact project delivery.
- Team Leadership: Leading and mentoring a team of project managers, fostering collaboration and communication, and development.
- Stakeholder Management: Maintaining strong relationships with all stakeholders, inside and outside Engineering.
- Process Improvement: Identifying and executing opportunities to improve project management methodologies, tools, and processes.
- Performance Monitoring: Tracking project performance, analyzing metrics, and providing correcting actions and regular updates to stakeholders.

### Who we are looking for:

- Strong leadership and management skills: Ability to lead, motivate, and develop project teams.
- Excellent communication and interpersonal skills: Ability to effectively communicate with stakeholders at all levels.
- Solid understanding of project management methodologies: Experience with various project management frameworks (e.g., Agile, Waterfall).
- Strategic thinking and problem-solving abilities: Ability to develop and implement strategic plans and effectively resolve complex issues.
- Financial management and budgeting skills: Understanding of financial principles and ability to manage project budgets.
