

"At Diehl, we combine tradition with innovation to provide **sustainable solutions** for our customers."

# MAKE IT WORK SMARTER

## Head of Supply Chain Planning & Execution (m/f/d)

### These are your tasks:

- Disciplinary management of the Supply Chain Planning & Execution department (production planning & procurement - department size approx. 17 employees) as well as operational management of the value chain from the customer to the supplier.
- This includes the operational processes of internal production planning & control as well as the planning, procurement and scheduling of the necessary purchased materials.
- Control of operational start-up management (from the development to the series phase), planning and implementation of supply chain designs and relocation projects as well as supply chain controlling activities.
- Further development of planning, control and procurement processes and their mapping in the ERP system (SAP).
- Continuous process optimization to achieve optimal parameters as well as responsibility for inventory management for raw materials, semi-finished and finished goods.

### Who we are looking for:

- Successfully completed economics or technical studies (ideally in the field of supply chain management) or corresponding training with additional specialist qualifications and at least 3-5 years of management experience.
- Experienced handling of supply chain and production processes (especially production planning and control, operational procurement) as well as confident handling of the necessary transactions in SAP.
- Strong knowledge of process and project management as well as lean methods.
- Ability to communicate and work in a team, independent and goal-oriented way of working as well as personal commitment.
- Assertiveness and organizational skills as well as a very good command of English.
