"At Diehl, we combine tradition with innovation to provide sustainable solutions for our customers."

Strategy Manager (m/ f/ d)

These are your tasks:

- You will work closely with the Vice
 President Strategy and the Management of
 the Metering Division on the planning and
 implementation of the strategy process.
- You are analyzing trends, market developments and the development of the division in comparison to the competition and derive opportunities, risks, strengths and weaknesses from them.
- You consolidate the division strategy based on the strategic business unit and functional strategies, taking into account the strategic target corridor.
- You introduce relevant KPIs, use them to track strategy implementation and derive possible measures from them.
- You are responsible for the continuous further development of management tools such as the balance scorecard.

Who we are looking for:

- You have a university degree in business administration, economic engineering or similar
- You have several years of successful experience in strategy development
- You are able to understand financial figures and you demonstrate a result-oriented and pro-active approach
- You enjoy working with other specialist functions in a global environment
- You have excellent spoken and written English skills, German and French are a plus and willingness to travel
