MAKE IT WORK SMARTER

Senior Azure & Endpoint Infrastructure Engineer GSC- IT (m/w/d)

These are your tasks:

- Analysis, design and conception of modern physical and cloud infrastructures based on Microsoft MECM/Azure/Intune for endpoints.
- Monitoring, optimization and administration of virtual/physical deployment environments including their interdependencies.
- Automating and optimizing recurring processes with Azure Functions (Azure PowerShell Runbooks).
- Creating and implementing compliance policies and security standards (CIS/STIG).
- Processing and evaluating complex incidents and user requests, as well as coordinating supplier support.
- Coordinating work packages in workplace projects, developing and controlling processes and workflows.
- Coordinating external service providers and internal IT teams in projects and Proof of Concepts (PoC).
- Ensuring process-compliant control of change and release management.
- Implementing new requests, coordinating with customers, organizing acceptance tests, and transferring solutions to production.
- Creating concepts, manuals, and detailed hands-on documentation.

Who we are looking for:

- A university degree in IT (or a related field) or completed training as an IT specialist with additional qualification as a technician and many years of relevant professional experience.
- In-depth knowledge of designing, conceptualizing, and administering deployment environments with Microsoft MECM/Intune/Azure, including OS deployment and task sequence management.
- Hands-on experience with PowerShell, PSADT, Python, and PatchMyPC.
- Proven track record in project management of complex IT infrastructure projects.
- Solid knowledge of ITIL-based Incident, Change, Release, and Problem Management.
- Extensive senior-level systems engineering experience with Microsoft infrastructures, supported by certifications.
- Ability to work independently while also collaborating effectively within a team.
- Strong team-player mentality combined with a high service orientation.
- Flexibility, strong motivation, and excellent analytical and conceptual thinking skills.
- Strong communication skills and very good command of English (spoken and written).
