

"It is important to me that we can
shape our future in a sustainable way.
That is why I am with Diehl."

MAKE IT WORK GREENER

Solution Lead Architect (all gender)

These are your tasks:

- **Shape solution strategy:** You define integrated solution concepts and roadmaps that align with business goals and deliver measurable customer value.
- **Own the lifecycle:** You manage solutions from ideation to rollout and continuous improvement, ensuring scalability, consistency, and governance across regions.
- **Drive portfolio alignment:** You evaluate solution opportunities based on strategic impact and profitability and ensure alignment with the overall product and service portfolio.
- **Collaborate across functions:** You work closely with product, service, sales, marketing, and delivery teams to define and refine solutions, and act as a key interface with regional stakeholders.
- **Innovate for the future:** You monitor trends, foster innovation through partnerships, and position the company as a solution-driven leader offering integrated, value-added offerings.

Who we are looking for:

- You have a university degree in business administration, industrial engineering, engineering, or a related field and proven experience in solution management, solution architecture, or product-service portfolio strategy within an international technical B2B environment.
- You have a strong knowledge of customer-centric solution creation, including services and lifecycle management.
- You have a proven ability to manage complex solution lifecycles across multiple regions, products, and services.
- You're fluent in English.
