

"There are **new challenges** that I can tackle everyday to continually improve things."

MAKE IT WORK

Senior SAP ABAP Developer , GSC -IT (m,w,d)

These are your tasks:

- Responsible for the technical implementation, enhancement, and optimization of the SAP landscape, ensuring compliance with SAP system standards.
- Collaborate closely with IT in-house consultants from Supply Chain, Engineering, and Finance to deliver robust solutions.
- Advise colleagues on leveraging system standards for efficient processes.
- Analyze and implement technical requirements to meet business needs.
- Develop and maintain ABAP programs, reports, and custom enhancements.
- Design and customize forms using Adobe Forms and SAPscript.
- Implement and maintain user exits, BAdIs, and other enhancement techniques.
- Perform error analysis, optimize performance, and create technical documentation.

Who we are looking for:

- A professional with several years of experience in ABAP development and SAP enhancement techniques.
- Strong knowledge of SAP form development and customization.
- Solid understanding of business processes in Supply Chain, Engineering, and Finance.
- Ideally experienced with interfaces (IDoc, RFC, BAPI, Web Services) and modern SAP technologies such as S/4HANA, CDS Views, and Fiori/UI5.
- Familiarity with SAP Business Technology Platform (SAP BTP), including tools like SAP Business Application Studio and CAP, and integration with on-premise systems.
- Analytical thinker with a structured working style, team spirit, and initiative.
- Proficient in English; German language skills are a plus.
