opportunities to continue growing."

MAKE IT WORK EFFICIENT

Head of Operations(F/H)

These are your tasks:

As Head of Operations, you will be in charge of the industrial performance of the Toulouse site, with a particular focus on repair, maintenance, and customer support activities. You will lead the Production, Supply Chain, and Lean teams in a demanding environment where lead times, regulatory compliance, and customer satisfaction are key priorities.

Your main responsibilities will include:

- Defining and implementing the operational strategy of the site, taking into account the specific challenges of MRO activities.
- Overseeing repair flows, turnaround times, and the conformity of repaired products.
- Ensuring the quality, traceability, and safety of operations in accordance with aeronautical standards.
- Managing and developing production and logistics operational teams.
- Leading continuous improvement projects (Lean, digitalization, repair process automation).
- Maintaining close collaboration with customers, suppliers, and other units within the Group.

Who we are looking for:

- You hold an engineering degree or an equivalent qualification.
- You have several years of professional experience in an industrial aerospace environment, including repair or maintenance activities.
- You possess a strong quality mindset and a solid understanding of regulatory requirements within the MRO sector.
- You are recognized for your leadership skills and excellent communication abilities.
- You demonstrate operational rigor, with a strong focus on performance and customer satisfaction.
- You are proficient in Lean tools and ERP systems (SAP).
- You are fluent in both English and French, and ideally have a knowledge of German.

Why join us?

- A strategic position at the heart of aerospace support activities.
- A human-sized company integrated within an international group.
- Innovative projects in a demanding, high-tech environment.
- A dynamic site located at the center of the Toulouse aerospace ecosystem.
