

"I particularly enjoy the **variety**. Things stay exciting and one has many opportunities to continue growing."

MAKE IT WORK

EFFICIENT

Quality Engineer - Analysis Center

These are your tasks:

- **Develop and lead:** You organize the management of returned products from our customers. You manage the 1st and 2nd level analysis of the products, cooperate with the lead plant and implement appropriate actions.
- **Financial management:** You manage the product replacement and the management of the provisions.
- **Production support:** You organize the management of production failures analyses. Additionally, you conduct internal audits of the process and the product and support in employee training.
- **Reporting:** You write and document analysis reports, register all information in the CAQ system (SAP) and support in solving issues by managing 8D.

Who we are looking for:

- You have strong technical engineering skills (e.g. electronic, mechanical, communication technologies) as well as a strong understanding of quality management systems and procedures.
- You have a proven track record conducting analyses, deriving and implementing appropriate actions as well as managing 8D reports effectively.
- You have strong analytical, organizational and problem solving skills.
- You are an excellent communicator and have strong collaboration skills with both internal and external parties.
- You are proficient in English, any other language such as German is a plus. Additionally, you are open to occasional domestic business travel.

Work location: Lisle, IL

Job Level: Graduate - work experience desirable

Working mode: Hybrid working

Working time: Full time

Employment contract: permanent

Division: Diehl Metering

Start: as soon as possible

As an established company, we aim to achieve solid and lasting growth. You will enter into a diverse corporate world, which gives you the room to develop your own ideas and solutions, of which both you and we are proud. We offer an excellent benefit package, flexible working hours, tools for professional and personal development and the opportunity to be part of a growing subsidiary within an international company. Diehl Metering is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, age, sex, national origin, disability status, genetics, protected veteran status, sexual orientation, gender identity or expression, or any other characteristic protected by federal, state or local laws. The expected base salary for this role ranges from \$80,000 to \$90,000 annually. Final compensation will be based on experience, qualifications, and other job-related factors in accordance with applicable laws. This range reflects the anticipated pay for this position at the current time.

These are your potential benefits

Professional and personal development

Flexible working hours

Onboarding program

Extra vacation days

Company mobile and laptop

Achieve what matters, with Diehl.
