

"At Diehl, we combine tradition with innovation to provide **sustainable solutions** for our customers."

MAKE IT WORK SMARTER

Quality Technician

These are your tasks:

- You assure that all quality control methods for products and semi-finished goods follow our quality documentation.
- You perform inspections and analyses on incoming parts and non-conforming products, monitor production processes, and carry out final acceptance of water meters.
- You support the calibration of measuring instruments (length, angle, mass, pressure, temperature) according to the schedule.
- You ensure proper use and maintenance of control and measurement instruments.
- You collect and analyze data to monitor process indicators and help solve quality issues in production.

Who we are looking for:

- You hold a high school diploma or equivalent and have at least 2 years of experience as a Quality Inspector or Technician in a production environment.
- You are skilled in handling measurement equipment and performing regular parts inspections.
- You bring strong analytical and organizational skills with great attention to detail.
- You work independently and as part of a team, always prioritizing safety and order.
- You speak and write English fluently and are eager to learn ERP systems like SAP.

Work location: Lisle, IL

Job Level: Professional

Working mode: On-site

Working time: Full time

Employment contract: One Year Contract

Division: Diehl Metering

Start: As Soon as Possible

As an established company, we aim to achieve solid and lasting growth. You will enter into a diverse corporate world, which gives you the room to develop your own ideas and solutions, of which both you and we are proud. We offer an excellent benefit package, flexible working hours, tools for professional and personal development and the opportunity to be part of a growing subsidiary within an international company. Diehl Metering is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, age, sex, national origin, disability status, genetics, protected veteran status, sexual orientation, gender identity or expression, or any other characteristic protected by federal, state or local laws. The expected base salary for this role ranges from \$21 to \$24 per hour. Final compensation will be based on experience, qualifications, and other job-related factors in accordance with applicable laws. This range reflects the anticipated pay for this position at the current time.
