

"It is important to me that we continue to be a **technological leader** in the future. That's why I am with Diehl."

# MAKE IT WORK

## Quality Assurance Engineer (Debrecen)

### These are your tasks:

- Ensuring that software and hardware developments for GIL/DRE comply with aviation standards (DO178/DO330 + DO254); further developing software and hardware development processes to improve quality and efficiency
- Organizing and conducting internal training sessions on the "software life cycle process"
- Creating software and hardware documentation templates and preparing them for approval
- Supporting internal software and hardware audits, preparing and archiving quality assurance reports
- Participating in audits at customer sites and maintaining ongoing communication regarding quality complaints (AS9115)

### Who we are looking for:

- **Fluency in ENGLISH**, both spoken and written (knowledge of GERMAN is a plus)
- Experience in quality assurance
- Experience in software and hardware development
- Strong problem-solving skills and a proactive attitude

**Work location:** Debrecen

**Job Level:** Professional

**Working time:** Full time

**Employment contract:** permanent

**Division:** Diehl Aviation

**Start:** As soon as possible
