

"It is important to me that we can
shape our future in a sustainable way.
That is why I am with Diehl."

MAKE IT WORK

GREENER

Global Product Manager Connectivity (all gender)

These are your tasks:

- **Put customers at the center:** You collaborate with customers, partners, and regional teams to define globally relevant use cases and translate them into product strategies and value propositions.
- **Understand the market:** You analyze international trends and competitors, validate opportunities through direct customer engagement, and identify new business potential.
- **Lead with strategy:** You develop and manage a global roadmap for connectivity products focused on customer value, profitability, and strong market positioning.
- **Drive collaboration:** You coordinate cross-functional teams across regions and ensure consistent execution of use cases with scalable product solutions.
- **Deliver impact:** You plan and execute international product launches, create compelling marketing materials, and continuously evolve the portfolio based on customer feedback and innovation.

Who we are looking for:

- You have an MBA degree in business administration, engineering, marketing, or a related field and proven experience in product management, ideally in an international / global role.
- You understand how to define use cases, develop customer-centric products, and manage the full lifecycle—from strategy to phase-out.
- You're skilled in business case development, pricing, and profitability tracking, and comfortable working across diverse cultural environments.
- You are excellent at stakeholder management, lead cross-functional teams without direct authority, and communicate effectively across all levels and regions.
- You're fluent in English, open to travel, and additional languages are a plus.
