

"At Diehl, we combine tradition with innovation to provide **sustainable solutions** for our customers."

# MAKE IT WORK SMARTER

## E2E Solution Manager (m/f/d)

### These are your tasks:

- Define and maintain end-to-end solution architectures, ensuring technical feasibility, scalability, compliance, and alignment with business requirements.
- Validate and assess technical solutions through feasibility studies, technical reviews, and performance evaluations across all lifecycle phases.
- Align solution designs with the product roadmap and collaborate with cross-functional teams to ensure consistent and successful implementation.
- Develop integration and sourcing strategies, evaluate sourcing options, and ensure effective integration of complex solutions across systems and platforms.
- Drive interoperability and performance testing, ensuring reliable integration and seamless operation with third-party systems and external partners.

### Who we are looking for:

- You hold a B.Sc. or M.Sc. in Computer Science, Engineering, or a comparable field and bring a minimum of 3–5 years of professional experience in solution architecture, systems integration, or related areas.
- You demonstrate strong solution architecture expertise, designing scalable, robust, and secure architectures across hardware, software, and connectivity layers.
- You possess solid integration and validation capabilities, including experience with APIs, interoperability standards, technical assessments, compliance checks, and performance validation.
- You proactively identify and mitigate technical risks, maintaining a continuous improvement mindset to enhance solution scalability, security, and lifecycle effectiveness.
- You excel in cross-functional collaboration and analytical problem-solving, effectively aligning stakeholders and managing complex technical dependencies in agile environments. You are fluent in English.
